Miller DuraHoist™ Safety Systems

- Portable Confined Space System designed for manhole and confined space entry/retrieval and fall arrest applications.

- Portable Fall Arrest Post provides three independent swivel tie-off points for fall arrest anchorage.
Designed for manhole and confined space entry/retrieval and fall arrest applications. The modular design allows the use of components in various configurations and applications. Multiple winches and/or lifeline systems may be mounted as required. Lightweight, manageable components for easy storage, transport and set-up. No tools required for assembly.

Accessories ........................................................................................................... 5

Provides three independent swivel tie-off points for fall arrest anchorage. Three-stage/four-position telescoping design and aluminum construction for easy transportation and set-up. The leveling screws allow the system to be plumbed to vertical for proper working stability on inclines up to 15 degrees. The post also provides Horizontal Lifeline (HLL) capabilities using the HLL Anchor Ring.

Meets all applicable OSHA and ANSI standards.
### Complete Four-Piece Hoist / Winch System

- Designed for manhole and confined space entry/retrieval and fall arrest applications
- System breaks down into four lightweight aluminum components for easy storage, transport and set-up. No tools required for assembly.
- Modular design allows the use of various fixed and portable bases and an optional mast with extensions. Multiple winches and/or lifeline systems may be mounted as required.
- Suggested Applications:
  - Public Utilities: Vault and manhole entry, pump/lift/valve stations, water treatment and wastewater industries
  - General Industry (Food, Chemical, Pulp & Paper): Elevated manholes, storage tanks, platforms/mezzanines, underground vaults, clarifier tanks, pre-heaters

**Overall system height adjusts from 79-in. (2.01m) to 100-in. (2.54m)**

**Mast offset adjusts from 12-in. (0.30m) to 29-in. (0.74m)**

---

### Adjustable Mast Options

**One-Piece Adjustable Mast**

- DH-21/ Upper Mast
- DH-23 30-in. (0.76m) to 48-in. (1.22m) Adjustable Offset Upper Mast

**Two-Piece Upper Mast**

- DH-21/ Mast offset adjusts from 12-in. (0.30m) to 29-in. (0.74m)
- Compatible with any two Lower Mast Extensions, not exceeding a combined 90-in. (2.29m) in height for the DH-21/ or 78-in. (1.98 m) for the DH-23

**Lower Mast Extensions**

- 21-in. (0.53m) Lower Mast Extension DH-22/21
- 33-in. (0.84m) Lower Mast Extension DH-22/33
- 45-in. (1.14m) Lower Mast Extension DH-22/45
- 57-in. (1.45m) Lower Mast Extension DH-22/57

**Overall mast height adjusts from 74-in. (1.88m) to 89-in. (2.26m)**

**Mast offset adjusts from 12-in. (0.30m) to 29-in. (0.74m)**

Three lightweight aluminum components for easy transport. Features adjustable aluminum screws and a built-in level indicator for easy set-up on uneven surfaces. No tools required for assembly.

Barrel Mount Sleeve DH-5/ Eight independent clamping screws allow temporary installations over edges of shoring cans, walls and other structures. Designed for shoring, wall and parapet applications where frequent set-up over varying wall thicknesses is required. Accommodates wall thicknesses up to a max. of 24-in. (0.61m).

Wall Mount Sleeve DH-8ZP/ & DH-8SS/ Mounts to vertical concrete or steel structures. Compact design creates minimal intrusion into work space.

Core Mount Sleeve DH-9ZP/ & DH-9SS/ Designed for slip-in installation into a 4-in. (0.10m) diameter core hole in concrete or in an existing steel structure.

Flush Floor Mount Sleeve DH-20ZP/ & DH-20SS/ Eliminates the potential trip hazard presented by other floor mount sleeves. Installs into a 4-in. (0.10m) diameter core hole in concrete or in an existing steel structure.

Manhole Collar DH-11/ Designed for applications involving frequent set-ups over similarly-sized access openings. Simply slip collar into sewer manhole, tank hatch or other opening.

Base Accessories DH-10ZP/ Sleeve Cap that keeps dirt and debris from getting into the opening of various sleeve mounts, Zinc-plated, Mild Steel 1.2 lbs. (0.5kg)
DH-10SS/ Sleeve Cap that keeps dirt and debris from getting into the opening of various sleeve mounts, 304 Stainless Steel 0.8 lbs. (0.4kg)
Vehicle Hitch Mounts

Designed to install into a 2-in. (.05m) receiver on an attendant vehicle to provide a portable anchor point for confined space entry/retrieval, rescue and fall arrest applications.

Portable Fall Arrest Post & Extension Post

- Provides three independent swivel tie-off points for fall arrest anchorage
  (Three worker maximum in any configuration)
- Three-stage/four-position telescoping design and aluminum construction
  for easy transportation and set-up
- Leveling screws allow the system to be plumbed to vertical
  on inclines up to 15 degrees
- Portable and fixed bases allow for versatile usage
- Suggested Applications:
  Electrical transformers, leading edge deck work, confined
  space and rescue, industrial presses, bridge cranes, large
  cranes, limited horizontal lifeline applications

14-in. (0.36m) Extension Post DH-AP-2/
Provides option to tie-off one worker
at an increased height of 68.5-in. (1.74m)

Portable Fall Arrest Post DH-AP-1/
Telescoping design allows
overall height to be adjusted in
three stages from 32.75-in. (0.83m)
to 57.25-in. (1.45m)

Rescue / Material Handling Davit Arm

- Designed for rescue and material handling applications
- Quick-attach design assembles easily
- Lightweight aluminum construction makes davit arm easy to transport and set-up

Miller TechLine™ Temporary Horizontal Lifeline Kits

System offers continuous fall protection for the length of the lifeline when used in conjunction with DuraHoist Fall Arrest Posts (DH-AP-1/). Ideal for applications where an overhead anchorage does not exist.

Kits include:

- 5/8-in. (.02m) polyester rope lifeline
- Line adjuster/tensioner
- Connecting ring(s)
- Snap hook
- In-line shock absorber (two worker kits only)

Additional Horizontal Lifeline products are available; contact Miller Technical Service 800-873-5242 (press 4 for Technical Service).

Miller ManHandler® Hoists

- The perfect solution for confined space entry, rescue, positioning and personnel/material handling.
  A secondary fall arrest system is recommended for fall protection.
- 350 lbs. (159kg) working capacity
- Compact, durable steel construction
- Effortless lifting and lowering with 5:1 gear ratio. Anti-backlash crank handle braking system.

**Compatible with DuraHoist™ Portable Confined Space System & DuraHoist Rescue/Material Handling Davit Arm**

**Miller MightyEvac® Self-Retracting Lifelines (SRL) w/ Emergency Retrieval Hoist**

- Combines the superior performance and reliability of the Miller MightyLite™ SRL with a quick-activating retrieval mechanism for emergency evacuation.
- No annual factory recertification required*
  - Significant long-term savings/lower cost of ownership
- 310 lbs. (141kg) weight capacity
- For emergency evacuation only
