First Responder Gloves
Performance, Durability, Value
A Name You Can Trust

For more than 90 years, Honeywell has led the industry with one-of-a-kind products that combine safety, durability, and comfort to meet your needs.

Comfort and Durability

Honeywell’s unique materials, such as DIGIROO KANGAROO LEATHER and KEVLAR®/NOMEX® blend linings, and our innovative design features, offer you comfort and durability while protecting you.

Innovation and Selection

Offering you an array of structural, proximity, technical rescue and recovery, and emergency medical operations products.

THE NUMBER ONE GLOVE FOR EASY FLEXING, EXCEPTIONAL DURABILITY, AND ABRASION RESISTANCE
Only the Super Glove contains patented Air Spacer™ Thermal Architecture. This architecture traps air for thermal protection without adding bulk to the glove. The unparalleled feeling of this glove is further enhanced with digital grip palms and fingers to maximize tactility and grip.

**Certifications**

**Gauntlet Model GL-SGKCG**
- NFPA 1971, Structural

**Wristlet Model GL-SGKCW**
- NFPA 1971, Structural
- NFPA 1999, EMS
- NFPA 1951, Utility, Technical Rescue and Recovery
- NFPA 1992, Liquid Splash

*Unique Regular Sizes: 2XS, XS, S, M, L, XL, 2XL, 3XL*

*Unique Cadet Sizes: 2XS, XS, S, M, L, XL, 2XL, 3XL*
THE ONLY CONVERTIBLE GLOVE THAT CAN BE WORN AS A WRISTLET OR AS A GAUNTLET
ECLIPSE™ GLOVE

The convertible cuff is patented and exclusive to our Eclipse gloves. Wear as a wristlet-style glove or fold back to convert to gauntlet-style glove. The extra-wide cuff, coupled with the two-ply Nomex spandex fold-back wristlet, makes donning easy. The DuPont Nomex fibers in the cuff provide superior strength and durability as well as high levels of thermal protection, standing up to the heat.

WING THUMB™ VS. SWING THUMB™

Honeywell’s engineered Swing Thumb design – standard on all Eclipse series gloves – is an ergonomically-correct thumb for Structural gloves. Unlike the traditional wing thumb or straight thumb found in other firefighter gloves, the swing thumb bends in opposition to the fingertips, mimicking the motions of the human hand.

1. **Anti-Slash Strips**
   Provide an extra band of protection to the palm and first knuckle while enhancing the wearer’s grip.

2. **360° Inner Pull Tab**
   Extra strength wherever you pull, and round shape holds glove open for better drying.

3. **Extra-Wide Opening**
   Makes getting a wet glove off and on easier.

4. **Gauntlet and Wristlet Styles**
   NFPA 1500 allows firefighters to choose between gauntlet gloves and ones with wristlets. Honeywell offers the widest selection of both styles, as well as the unique “convertible cuff” that is standard on our Eclipse models 6400 and 8700. All wristlet-style gloves include leather pull tabs as well.

5. **Convertible Cuffs**
   Eclipse Gloves

   Wear as a wristlet-style glove or fold back to convert to a gauntlet-style glove.
   • Two outer shell leather choices
   • Kangaroo palm and elk back
   • Eversoft cowhide palm and elk back

6. **Three Moisture Barrier Choices**
   • Crosstech
   • Pyrotect

Certifications

Model GL-8700
