<tr>
<td>Thunder® T3</td>
<td>Leightning® LOF</td>
<td>Viking® V3</td>
<td>Thunder® T2H</td>
<td>Leightning® LIN</td>
</tr>
</tbody>
</table>

### WEAR
- Read and follow all earmuff fitting instructions.
- Move hair from underneath ear cushions.

### SELECTION
- Avoid overprotection in minimal noise environments — selecting the best earmuff for your situation, considering noise levels and your need to communicate with co-workers or hear warning signals on the job.

### MAINTENANCE
- Regularly inspect earcups and ear cushions for cracks and leaks: discard if earcups are visibly damaged or compromised.
- Clean earcups and ear cushions regularly with mild soap and water. Do not dip in water, and do not treat with other substances.
- Replace ear cushions and foam inserts every 6-8 months under normal wear, every 3-4 months with heavy use or in humid/extreme climates. Hygiene kits are available for all earmuffs.

### DO's and DON'Ts of Howard Leight Earmuffs

**DO's**
- Cover ear completely.
- Firm seal.
- Avoid obstructions.
- Cover ear completely.

**DON'Ts**
- Avoid obstructions.
- Do not allow hair or objects to obstruct the ear or the earmuff's secure fit in any way.

**DISCLAIMER:** If the above-mentioned recommendations are not followed, the protection and function afforded by the earplugs may be severely impaired. This may cause consequences for the user for which Honeywell Safety Products and its affiliated entities can not be held responsible. Honeywell Safety Products can not guarantee that any type of warning signals including communication with other people in the surroundings can be heard and understood by the wearer of this hearing protector. The sound level and the frequency content of the warning signals as well as of the background noise can vary in different situations.

**WARNING:** All hearing protection affords limited protection. The user is responsible for the proper selection, use, care and maintenance of this device. Improper selection (including under/over protection), use or maintenance may lead to serious hearing loss. If there are any questions concerning this product, contact your safety supervisor or Honeywell Safety Products.
