### Order a Custom Configured Honeywell Titan SCBA

1. Specify a part number for a Honeywell Titan SCBA without Cylinder and Facepiece from the matrix below, as follows:
  - a) First determine whether you want a PASS device or the Pathfinder firefighter locating system. You have three choices—neither, just the PASS, or both.
  - b) Then determine what pressure (2216 or 4500 psig) you require.
  - c) Determine what audible low air alarm you want (warbling whistle or bell). Choose the appropriate part number from the matrix that reflects all the above choices.
  - d) You have the choice of standard parachute release buckles or optional Alligator release buckles. There is no additional cost for the Alligator buckles. To choose the Alligator buckles, add the letter "A" to the beginning of the part number, e.g., A45TB1301.
  - e) Lastly, you have the option to *remove the intermediate pressure hose quick-disconnect and have a one-piece continuous intermediate pressure hose*. There is a savings for this option. To choose the one-piece continuous intermediate pressure hose, add the letter "N" to the beginning of the part number, e.g., N45TB1301.
    - Note—Should you want Alligator release buckles and a one-piece continuous intermediate pressure hose, you would add the letter "NA" to the beginning of the part number, e.g., NA45TB1301.
2. Specify all Installed Accessories. The part numbers for installed accessories are the same as the regular part numbers for those accessories, but with an "X" as a prefix. Example: A CommCommand™ Voice Amplification System (VAS) ordered as a kit (not installed) would have a part number 252136. See page 8 for part numbers for installed accessories.
3. Specify a part number for a Facepiece. See page 9 for part numbers for facepieces.
4. Specify a part number for a Cylinder. See page 10 for installed and page 11 for spare cylinder/valve assembly part numbers and prices.
5. Specify a Carrying Case, if desired. See page 12 for the installed carrying case part numbers and prices.
6. Non-Installed Accessories. These are additional components you might require in addition to those accessories on the SCBA. See page 12 for part numbers for non-installed accessories.
