2” Ball Hitch Adapter
Model: DH-16

Description
The 2” Ball Hitch Adapter installs between the DH-12 and the attendant vehicle and mates with all standard 2” ball hitches.

Materials
General Construction: Welded Steel
Weld Certification: AWS
Finish: Zinc Plated
Hardware: Gr. 5 Zinc Plated
Plating Specification: ASTM Designation B633-85, Type II, SC2

Technical
Working Load: 450lbs (204kg)
Design Factor: Dependent on other system components, minimum 4:1
Weight: 19lbs (8.6kg)

Application Restrictions
1. This device is intended for use with equipment and accessories manufactured and/or approved by Miller. Accessories are subject to various application restrictions as outlined in the application accessory specifications sheets.
2. Only one extension at a time is to be used with a hitch mounting sleeve. Multiple hitch mount sleeve extensions are not to be used.
3. The standard Hitch Mount Sleeve is to be used with a maximum 30” (762mm) offset mast.
4. Anchoring to an attendant vehicle may not be permitted within certain jurisdictions. Ensure that use of this equipment does not violate any regulations within your area.
5. The 2” Ball Hitch Adapter must be served directly to vehicle, not between a Hitch Mount Extension and Hitch Mount Sleeve.
6. Each installation must be approved to local standards by a qualified engineer.
