TITAN

B-compliant Roof Kits

ECONOMICAL • COMPLETE FALL PROTECTION SOLUTION • EASY TO USE

The new **Titan B-Compliant™ Roof Kits** provide a complete fall protection solution for roofing applications. The kits simplify product selection by providing all of the components necessary for fall protection safety and to meet federal OSHA compliance.

Each Titan B-Compliant Kit includes:

- Lightweight, full-body harness with 3-point adjustment – mating buckle leg and chest straps – for easy adjustment and comfortable fit. Allows for quick donning and greater mobility, increasing productivity with less worker fatigue.
- Rope grab with *permanently-attached*, 3-ft. (.9 m) lanyard with shock absorber pack – in the event of a fall, the rope grab locks on to the rope reducing force on the worker.
- High-strength, 5/8-in. (16 mm) diameter, polypropylene rope lifeline with locking snap hook – enables quick attachment to roof anchor and provides UV as well as moisture resistance for increased product durability.
- Reusable stainless steel roof anchor bracket with plated D-ring – corrosion resistant for long service life on the job site.
- Waterproof storage container – convenient storage container that protects equipment when in storage for a longer service life.

Titan B-Compliant Roof Kits

SKU	Description	Weight/Kit	Weight/Pallet (24 Kits)
