10 Second Rush. 15 Minute Flush.
AVAILABLE WITH STANDARD OR 100% STERILE SALINE EYEWASH SOLUTION.
Is Your Facility in Compliance with Current Emergency Eyewash Regulations?

OSHA and the American National Standards Institute specify requirements for workplace eye hazard areas. In fact, ANSI Z358.1 states that primary, 15-minute eyewash units “shall be in accessible locations that require no more than 10 seconds to reach.”

The Fendall Pure Flow 1000 emergency eyewash station delivers the required 15 minutes of flushing with a preserved, buffered saline solution. The Fendall Pure Flow 1000 uses sealed fluid cartridges and provides affordable, portable placement within 10 seconds of any workplace hazard.

No plumbing required! Available with standard or 100% sterile saline eyewash solution.

**FEATURES AND BENEFITS**

- **Self-contained/no plumbing.** Easy installation with no plumbing required. Can be easily and affordably placed near most workplace hazards or transported with optional universal cart or stand.

- **Factory-sealed fluid cartridges.** Eliminates mixing, measuring, and the opportunity for airborne particles or microorganisms to contaminate the fluid prior to use. Factory-sealed cartridges feature an integral nozzle and hose design to ensure delivery of purified, contaminant-free, and physiologically correct saline solution.

- **Saline solution delivery.** Unique nozzle design delivers a soft “ribbon” of saline solution superior to tap water for emergency eye care. A 100% sterile saline option is also available.

- **Constant flow rate.** Permits thorough flushing with a constant flow rate and stream height that provides 0.4 gpm for entire 15-minute cycle required by ANSI Z358.

- **Integral fluid reservoir.** Captures waste fluid to eliminate spill hazards and simplify fluid disposal.

- **Easy cartridge replacement.** Cartridges remain sealed until activated. Expiration date is included on activation straps — and cartridge replacement takes less than five minutes.

- **Easy maintenance.** RFID technology gives you instant, accurate safety information about the cartridges while the easy view window makes inspection and maintenance quick and easy.

- **Easy installation.** Instruction manual, video and cartridge components ensure proper installation and maintenance to prevent false activation.
