Hand Protection

Rig Dog™ Xtreme and Cold Protect
High impact gloves with enhanced oil-grip and ANSI A6 cut protection.

We know your #1 priority is keeping your workers out of harm’s way. Rig Dog™ Xtreme gloves provide the ultimate protection and enhanced grip your team needs to be safe and efficient when handling dry or oily surfaces. But, Rig Dog™ doesn’t just offer safety. These gloves are durable and can absorb the sweat quickly and make your hand feel dry, so they are comfortable to wear during long shifts in tough environments. All of which helps you reduce costs and avoid downtime.

Rig Dog Xtreme:

- CoreNest™ technology: reinforced TPR (thermoplastic rubber) composite material with honeycomb structure to enhance the energy absorption feature on back of hand for providing improved impact protection on knuckles
- Elevated finger-tip protection for providing enhanced impact protection on finger tips from hammering
- Impact protection level 2 according to ANSI/ISEA 138, is notched to allow for great flexibility and dexterity
- Minimum stitching on palm for providing low oil permeability through palm for comfort and long lasting experience
- Cut and sewn construction with multilayer fabrics to provide ANSI A6 (ISO level F) cut resistance, enhanced oil grip, dry/wet grip, and level 4 abrasion resistance
- Quick dry, moisture wicking fabric to provide sweat management for all day comfort
- Reinforced thumb-crotch protection and durability
- Available with winter lining for cold environments (EN511 standard compliance)

FEATURES & BENEFITS
### COMPOSITION

**RIG DOG™ XTREME**
