Sperian ONE-Fit NBW95 and NBW95V particulate respirators

An exclusive design and shape. Universal, one size respirator designed to fit most face sizes and shapes.

The ONE-Fit NBW95 and the ONE-Fit NBW95V are the latest NIOSH approved, N95 molded-cup style filtering respirators from Sperian Protection. As a universal, one-size respirator, both the NBW95 and the NBW95V (with exhalation valve) are designed to fit most face shapes and sizes while providing outstanding respiratory protection.

- Designed to be an economical choice for effective single-use respiratory protection.
- 95% filtration efficiency against solid particulates and non-petroleum based liquid aerosols.
- Both the NBW95 and NBW95V meet NIOSH standards for N95 protection.
- Meets CDC guidelines for M. tuberculosis exposure control.
- Recommended for protection against many substances including pandemic diseases such as H5N1 Avian Flu and SARs.
Respiratory Training Program
Sperian Protection offers a complete respirator training program to assist your facility in achieving compliance with OSHA regulations. Materials include:

- OSHA MedCert online medical evaluations
- Respirator fit-test program and materials
- Respirator use and maintenance program and materials
- Various respirator fit-test kits

Respiratory Protection Standards
Use of respirators in the workplace is regulated by OSHA Respiratory Protection Standards 29 CFR 1910.134, which requires an appropriate respirator program be established to include a written program, employee training, respirator fit-testing, medical monitoring and program documentation and maintenance.

For information about these materials, contact your respirator supplier
