## Overview

### Key Features

- Silicone seal provides excellent facepiece seal, creating a barrier against contaminants
- Silicone nose cup is soft and comfortable for all day wear
- Polycarbonate lens with wide field of vision maximized peripheral visions plus downward view; meets ANSI Z 87 for high impact
- Wide viewing area provides distortion free visibility and optical clarity
- 5-point strap option includes center strap to help position and hold the mask for a more secure fit; offers quick, easy adjustments
- Industrial mesh headnet option provides another choice for user comfort preference; can be used under hard hat
- Threaded cartridge connector secures cartridges and filters to avoid accidental disconnections
- Can be adapted to side mount CF-SAR, front mount CF-SAR, side mount PAPR and front mount PAPR eliminating the need to fit test workers on several respirators
