Dear Valued Partner,

As you have heard or read in the news, the coronavirus outbreak is having a substantial impact across the globe. Because of the outbreak, a lot of Health and Safety Public Bodies in several countries are experiencing shortages of face masks and other Personal Protective Equipment (PPE).

As a result, several countries have issued legally binding instruments to restrict the sale and foreign trade of certain PPE products.

Therefore, the supply of certain PPE products such as respiratory masks and gloves may be affected. Delivery and lead time impacts will vary by order based on the location of manufacturing for the specific products and/or the country of destination of the specific products.

We will continue to monitor the COVID-19 situation and will update you as necessary. Honeywell is committed to offering you best-in-class products and services to help you better serve your customers.

Thank you,
